

Muhammad Noman

React Frontend Developer

nomankhan02432@gmail.com | +923160253225 | LinkedIn: [Muhammad Noman](#) | GitHub: [mnomandev](#)

PROFILE SUMMARY

Results-driven **React Frontend Developer** with hands-on experience in building scalable, responsive, and dynamic web applications. I am skilled in **React.js**, **JavaScript**, **Redux**, and modern **UI libraries**. Passionate about crafting seamless user experiences, optimizing performance, and writing clean, maintainable code. Strong problem-solving abilities with a focus on frontend architecture and usability.

EDUCATION

Comsats University Islamabad, Abbottabad Campus

March 2021 - Feb 2025

BS in Computer Science

CGPA: 2.97

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Material UI, ChakraUI, ShadeCn
- **Databases:** MongoDB, SQL
- **Tools & Platforms:** Axios, REST API integration, Caching, Lazy Loading, Code Splitting, Responsive Design, Git, Chrome DevTools
- **Other:** Agile Methodologies, API Integration, State Management, Testing & Debugging

WORK EXPERIENCE

MERN Stack Fellow (Internship) - Bytewise Limited

Duration: 6 months

- Successfully completed an intensive **MERN Stack fellowship program**, learning both frontend and backend development.
- Gained hands-on experience in **React.js (from basics to advanced)**, Node.js (Express.js), and database management with **MongoDB & SQL queries**.
- Developed multiple assignments and projects to reinforce learning, including a **Customer Relationship Management (CRM) backend system**.
- Focused on **secure API development, authentication (JWT), and role-based access control**.
- Strengthened debugging, optimization, and best practices for **scalable application development**.

Frontend Developer – Abbottabad Police

Duration: 6 months

- Refactored and modularized the codebase by dividing the UI into meaningful, reusable components.
- Handled API integrations and managed application functionality to ensure smooth user interactions.
- Focused on creating a clean, responsive, and user-friendly front-end experience.
- Also got a certificate from Abbottabad Police for contribution.

PROJECTS

FurnishART: ([Project Live](#))

Technologies used: React.js, Redux, Material UI

- Built a furniture e-commerce platform with user-friendly, responsive pages using React.js and Material UI.
- Used Redux for efficient state management across the application.
- Implemented a dynamic product catalog and interactive previews to enhance user experience.

eDevice-CR: ([Abbottabad Police Website](#))

Technologies used: React.js, JavaScript, API Integration, State Management, Tailwind

- Designed and developed a **police website** with real-time data updates.
- Integrated API calls for **dynamic data retrieval and handle state management**.
- Improved application **scalability & reusability** by modularizing components.

E-Commerce Website: ([Product Selling](#))

Technologies Used: React, JavaScript, Node.js, Express.js, MongoDB, Tailwind

- Designed and developed a **product selling Website** with real-time data updates.
- Beautiful Pages for Admin and customers using React.js.
- Integrated API calls for **dynamic data retrieval and state synchronization**.
- Used role-based **Authentication** for Admin and users.

CustomerConnect CRM: ([Fellowship Final Project](#))

Technologies used: MongoDB, Express, React, Node.js (MERN Stack)

- Developed as part of a fellowship program to manage customer data, sales processes, and interactions.
- Features: Role-based access control with JWT authentication, customer management with CRUD operations and task reminders.
- Focused on building a scalable and secure backend system.

Clones: ([YouTube](#), [Spotify](#))

Technologies Used: React, TypeScript, YouTube Data API, Spotify API

- **YouTube Clone:** Design the User Interface using React.js and Fetched & displayed video data dynamically using YouTube **API**.
- **Spotify Clone:** Integrated **Spotify API** to retrieve and display music data with an interactive UI.
- Focused on responsive design, API integration, and **modern state management practices**.

CERTIFICATIONS & ACHIEVEMENTS

- **React Basics & React Advanced** (Coursera)
- **MERN Stack Fellowship** (Bytewise Limited) - Hands-on experience in full-stack development
- **Git & GitHub Certification** (Coursera)
- **Introduction to SQL** (Google Developer Program)
- **Abbottabad Police Website Contribution Certificate** for frontend development of **eDevice-CR**.
